

## LEGISLATIVE CHANGE

### *Workers Rehabilitation and Compensation Act 1986*

June 2008

On 17 June 2008, the South Australian Parliament passed changes to the Workers Rehabilitation and Compensation Act. Most of the changes will in some way affect the procedures and administration of workers compensation claims under the Catholic Church Endowment Society Exempt Licence. WorkCover SA has presented proposed time frames for the legislative reform and implementation schedules across all sectors. Some of the more straightforward changes come into operation as from 1 July 2008; the more complex changes will be delivered over the next two years once regulations, guidelines and policies have been developed in consultation with WorkCover SA and other stakeholders.

Catholic Church Insurances Limited has received draft copies and will seek legal advice on the interpretations and action required to continue to manage compensation claims on behalf of CCES. We will use this forum to keep all sectors up to date with legislative changes as well as providing training and development for all sites as required.

Any questions regarding these changes please contact:
